SUMMARY

Final-year Computer Science undergraduate seeking a Software Development Internship, with a strong foundation in full-stack development, Python programming, and data science fundamentals. Skilled in building efficient, user-friendly web applications using modern frontend and backend technologies, with hands-on exposure to machine learning, exploratory data analysis, and cloud/database platforms. Quick learner with a strong grasp of engineering and programming basics, eager to apply technical skills to real-world projects and contribute to a collaborative development team.

EDUCATION

B.Tech - UG CSE	Aug 2023 - Present
GM University, Davangere CGPA: 9.01	
Pre-University Course (PUC / 12th)	Jul 2021 - Mar 2023
STJ COMP PU College, Davangere Percentage: 80 %	
SSLC / 10th Grade	Jun 2020 - Jul 2021
Shree Jnana Ganga Eng Med High School, Kundur Percentage: 88.80%	

TECHNICAL SKILLS

Programming Languages: HTML5, CSS3, JavaScript (ES6+), TypeScript, Python, Java, C
Frontend: React, Vue.js, Angular, Bootstrap, Tailwind CSS
Backend & Data: Flask, FastAPI, SQL, Exploratory Data Analysis (EDA), Data Visualization
Databases: MySQL, MongoDB, Supabase, PostgreSQL, Firebase
Soft Skills: Problem Solving, Analytical Thinking, Team Collaboration, Communication, Critical Thinking

PROJECTS

TechBook View Project	Dec 2025
● Educational platform (HTML5, CSS3, JavaScript, Flask, FastAPI, Firebase) offering study materials, technical articles, coding resources, and interview-prep content in a structured, user-friendly interface.	
Transaction Risk Scoring System View Project	Feb 2026 - Jul 2026
● Advanced Transaction Risk Scoring System Using Classification Models is a machine-learning-based system designed to identify and prevent fraudulent financial transactions in real time by analyzing transaction data with various classification algorithms.	
Student Complaint Management System View Project	May 2026 - Jun 2026
● A web-based platform that streamlines submitting, tracking, and resolving student complaints related to academics, infrastructure, hostel facilities, transportation, examinations, and other campus services.	
E-Voting Using Blockchain View Project	May 2026 - Jun 2026
● A secure and transparent digital voting platform leveraging blockchain technology to ensure the integrity, privacy, and immutability of election data, enabling electronic voting while preventing tampering, duplication, and unauthorized access.	
Smart Multi-AI Assistant for Unified Task Management View Project	Apr 2026 - May 2026
● An AI-powered platform that combines multiple intelligent assistants into a single system for unified task management.	

PROFESSIONAL EXPERIENCE

Freelance Software Developer — Self-Employed, Remote

- Developed and maintained web applications and software solutions tailored to client requirements.
- Designed responsive user interfaces and backend functionality using modern web technologies.
- Collaborated with clients to gather requirements and deliver high-quality solutions on schedule.
- Performed testing, debugging, and optimization to ensure application performance and reliability.

CERTIFICATIONS

Gemini Certified Educator - Google AI View Certificate	Sep 2025
DSA & Algorithms for Project Development - SDTCD-CELL View Certificate	Jul 2024
Full Stack Development, Stage-1 - SDTCD-CELL View Certificate	Mar 2025
Full Stack Development, Stage-2 - SDTCD-CELL View Certificate	Jul 2025
Ethical Hacking - SDTCD-CELL View Certificate	Feb 2026
Cybersecurity Analyst - TATA-Forage View Certificate	Aug 2025
MongoDB Atlas View Certificate	Sep 2025
Cyber Job Simulation - Deloitte via Forage View Certificate	Jun 2026

ACHIEVEMENTS

- Vice Chairperson, GMU ACM Student Chapter (Jun 2026) — Lead technical events, technology awareness sessions, and skill-development programs to enhance students' learning, innovation, and professional growth.
